Technical Skills

Languages: C/C++, Go (Golang), Java
Databases : MongoDB, PostgreSQL, Redis
Distributed Systems : Kafka, Asynchronous Messaging
Web Tools & Technologies: VS Code, GitHub

Work Experience

Intern – Linux Administration & Virtualization

May 2024 – Aug 2024

Grras Solutions

Jaipur, Rajasthan

- Configured and administered 5+ Linux virtual machines (Ubuntu, CentOS, and RHEL), performing user management, file system administration, and server maintenance.
- Created and managed **10+ Docker containers** for application deployment and testing.
- Deployed **15+ Kubernetes pods** and **8+ services** while gaining hands-on experience with container orchestration, networking, and workload management.
- Automated **10+ repetitive Linux administrative tasks** using **Golang** and **Bash** scripts, reducing manual effort and improving operational efficiency. .

Trainee – Web Development

June 2023 – July 2023

Sunshine Software Training Institute

Jaipur, Rajasthan

- Built and designed 5+ responsive web pages using HTML and CSS, ensuring cross-browser compatibility and an optimal user experience across desktop, tablet, and mobile devices.

Projects

Finance Dashboard System

- Built a full-stack finance dashboard using React (frontend) and Go (Gin) with PostgreSQL (backend).
- Enforced **JWT-based authentication** and **role-based access control (RBAC)** (Admin, Analyst, Viewer)
- Built **RESTful APIs** for managing financial records (income/expense) with **secure user-specific data handling**
- Containerized the backend using **Docker** for easy deployment
- Tech Stack:** React, Go (Golang), PostgreSQL, JWT-based Authentication, Role-Based Authorization (RBAC), Docker.

AI SRE Agent — Golang, Kubernetes, OpenAI API, Prometheus, RAG

- Built an AI-powered SRE agent in Golang for cloud infrastructure troubleshooting.
- Integrated LLM tool calling with Kubernetes APIs and Prometheus metrics.
- Implemented RAG to answer infrastructure and operational documentation queries.
- Automated root cause analysis using pod logs, events, and metrics.
- Tech Stack:** Go (Golang), OpenAI GPT-5, Tool Calling, Kubernetes (client-go), Prometheus, Chroma/Qdrant, Embeddings, REST APIs.

Real-Time Chat Application

- Built a full-stack real-time chat application using **Golang (backend)** and **React.js (frontend)** .
- Added **WebSockets** for bidirectional, low-latency communication between clients and server.
- Used **Redis** for fast data storage and message handling to support real-time performance.
- Tech Stack:** React.js, Golang, WebSockets, RateLimiter, JWT, Tailwind CSS.

Encryption and Decryption System

- Built a full-stack real-time chat application using Golang (backend) and React.js (frontend).
- Implemented AES encryption, SHA-256 hashing, and Base64 encoding for secure data handling.
- Developed RESTful APIs with JWT authentication and token bucket rate limiting
- Tech Stack:** Golang, MongoDB, React, JWT, AES, Base64, Sha256, RateLimiter.

Education

Government Women Engineering College, Ajmer

2021 - 2025

B.Tech in Computer Science Engineering

8.06/10 CGPA

Government Higher Secondary School Tikri

2020 - 2021

Intermediate: 89.2%

Udhampur, Jammu and Kashmir
